

FORSHAGA DENTALDEPÅ WITH NEW OWNERSHIP AFTER 73 YEARS

Forshaga dentaldepå, Swedish market leader in distribution of consumables and equipment to dental technicians, has new ownership. Mr Patrik Sandin has sold the family enterprise from 1937 to Mr Tomas Sund.

Business will continue as usual with logistics center in Forshaga and sales offices in Malmö and Stockholm. Mr Sund has a solid and successful background from Swedish, Nordic and Baltic dental business and held the position as General Manager for the last 10 years in DAB Dental AB and DAB Lab AB.

“I am very pleased to hand my business over to Tomas, and to see him develop the company with his over 20 years experience in Swedish dental trade” says Mr Sandin. “I also would like to express my thanks to all employees, customer and suppliers for a fantastic cooperation during my 40 years”.

“I am looking forward to expanding the company together with the competent Forshaga dental team. With the best brand name in the business we will stay personal and committed to being our customer first hand choice always”, says Mr Tomas Sund, also the General Manager of Forshaga Dentaldepå.

Mrs Barbro Lidström, successful former General Manager for the last two years, has resigned.

The Norwegian sister company, Dentalvarer A/S in Kongsvinger, is not a part of this acquisition but the cooperation continues.
